

Frontier Lodge

Frontier Lodge Camp Pricing Model

We are excited for the summer of 2026! At Frontier Lodge, our deepest hope is that every camper will come to know and experience the goodness of God through our staff team and through the unique, transformational outdoor adventure programs we offer.

A few years ago we introduced a new approach to camp pricing, and we are continuing with that same model for 2026. This model allows families to self-select the price they are able to pay. We recognize that each family's financial situation is different, and we desire for camp to remain accessible to as many young people as possible.

How Self-Selected Pricing Works

The prices listed below reflect different levels of subsidy from the full cost of a week at camp. Families choose the price that best fits their circumstances, no explanation or application is needed unless further subsidy is requested. We simply ask families to thoughtfully consider what they can give.

How Subsidies Are Made Possible

Every dollar of subsidized pricing is covered through the generosity of donors who believe in the mission of Frontier Lodge. Because of these supporters, we are able to offer reduced rates without compromising the quality of food, housing, programming, or staffing that makes camp safe and impactful. Frontier Lodge, with the support of our generous donor team, raises over \$250,000 annually to assist in covering our annual operational costs.

Pricing Options

Full Price – \$2,235 per camper + GST

This represents the true market value of a week at Frontier Lodge. It reflects the real cost of food, lodging, programming, staffing, and operations.

Subsidy 1 – \$1,944 per camper + GST

A 13% subsidized option, supported through donor-funded assistance.

Subsidy 2 – \$1,653 per camper + GST

A 26% subsidized option and similar to our previous standard camp fee.

All prices include a Frontier Lodge Summer Camp T-shirt.

Additional Support

If the above prices are still out of reach, additional financial assistance is available through our Summer Camp Scholarship Fund. This fund can provide up to a 100% subsidy, and an application is only needed when requesting support beyond the three self-selected pricing options.

No Preference Given

Please know that the price you select will never affect your child's camp experience. There is no distinction, preference, or attention given based on the amount paid. Every camper receives the same high-quality, Christ-centered experience.

We are truly excited to welcome your kids this summer, to see them experience community, adventure, and God's incredible creation. Thank you for partnering with us in making camp accessible to all.

In Christ,

Mac Vidal
