

We are excited for the summer of 2025! Our hope at Frontier Lodge is campers will come to know and experience the goodness of God through the staff team and our unique programming.

We have a self selected option available to pay various levels of the full price of a week of camp through subsidies.

Subsidized pricing: every dollar of subsidized camper fees is offset through donations to cover the full common market value price.

The 'Full Price' refers to the common market value which is the standard cost charged to guests at Frontier over the course of the previous year. This cost covers the cost of food, housing, programming, staffing, and operational costs.

The three main price options are:

- **Full Price: \$2130 per camper** - This price is the common market value price it would cost to send a camper to Frontier Lodge for 3 weeks. (Plus \$15 for Frontier T-Shirt)
- **Subsidy 1: \$1920 per camper** - this price represents 10% of the common market value cost of a camper. (Plus \$15 for Frontier T-Shirt)
- **Subsidy 2: \$1640 per camper** - This price would be our standard camp price at 23% of the common market value per camper. (Plus \$15 for Frontier T-Shirt)

This pricing is completely self selected by families as they register. There is no differentiation, attention, or preference given based on the price paid.

In the event that these subsidized prices are still too much we have a summer camp scholarship which provides further subsidy available upon application.

We are very excited for your kids to come to camp and be immersed in the community and our God's creation.
